ENO'S "VEGETABLE MOTO"

(A NATURAL LAXATIVE, STOMACHIC, BILE, OR LIVER TONIC PILL).

A Simple and Natural Specific for Bilious Attacks, Gouty or Rheumatic Poisons, and their Kindred Evils
(WITHOUT HAZARDOUS FORCE OR STRAIN).

**A RATIONAL CURE FOR BRONCHIAL, ASTHMA, AND
CONSTITUTIONAL COUGHS AND COLDS.**

Dear Sir,—I feel it my duty to add my mite in praise of ENO'S "VEGETABLE MOTO." I have suffered from a constitutional Cough all my life, and this winter caught a severe Cold which developed into Bronchitis and Asthma. In this dilemma my attention was called to your "VEGETABLE MOTO," and I determined, much on the principle that drowning men catch at straws, to give the "MOTO" a trial. I am happy to say that, after a few doses, I was in every way satisfied by finding them more than answer my best expectations. They move the bowels without pain, and keep up a continuous, mild, and natural act for several days without being obliged to stay away from business or fear of taking cold, and they add greatly to my general comfort. It is a just statement when I say you cannot overrate their value in keeping the blood pure, and by that means prevent and remove Coughs and Colds and other disastrous blood poisons.

I enclose my card, and as one who is grateful, shall feel obliged by your making any use of this letter you may desire.

To J. C. ENO.

Yours obediently,
X. Y. Z.

**SLEEPLESSNESS AND NIGHTMARE FROM LIVER
DERANGEMENT.**

Dr. MURCHINSON says:—Sleeplessness may arise from different causes, one being derangement of the liver. When that is the case, the patient is often heavy and drowsy after a meal; after one or two hours he awakes, and then he either lies awake, or constantly falling asleep, dreaming, or having the nightmare, until the morning comes, when he drops into a quiet sleep of an hour or more or he is obliged to get up tired and irritable. This sleeplessness is often induced by articles of diet, or by some unwholesome combination of them. What will excite headache, times this symptom will occur when the patient is most careful as to diet. What is important to know is that this symptom will occur when the patient is most careful as to diet. What is important to know is that this symptom will occur when the patient is most careful as to diet. What is important to know is that this symptom will occur when the patient is most careful as to diet.

note is, that in most of these cases there are no obvious symptoms of gastric dyspepsia; the appetite may be good; the bowels may be regular, and there may be no pain, flatulence, or other discomfort, after meals; but there will be found an unusual tendency to the deposit of lithates in the urine, and very often other phenomena of a so-called gouty diathesis.

A gentleman writes:—I have taken the Motos for upwards of two years, previous to which I was troubled with sleeplessness and bilious headaches, &c. I have not lost one hour's sleep since taking them.—Yours, &c., PLAIN TRUTH.

PREVENTION.—THE RECURRENCE OF SMALL AILMENTS can only be averted by strict attention to Dietic Rules, also Rules for life. WITH EACH BOTTLE OF ENO'S "VEGETABLE MOTO" is given a sixteen page Pamphlet (entitled "Duty") on the prevention of Disease.

ENO'S "VEGETABLE MOTO," of all Chemists, Price 1s. 1½d.; post free, 1s. 3d.

Letts's FILE BOXES, from 1s.

The simplest and most useful contrivance for putting away papers. Externally it looks like a book, and is suitable for placing with bound books on the library shelf; internally it has a loose flap, kept in position by an elastic cord, and under this the papers are always retained in position for easy reference.

No.	Inside measure.	Each.	Index.
0. Octavo size, to hold letters, invoices, &c. ...	8 $\frac{3}{4}$ by 5 $\frac{3}{4}$ in.	1 0	—
1. Ditto ditto ditto ...	9 by 5 $\frac{1}{2}$ "	2 6	6 6
2. Small 4to., to hold sermons, lectures, &c. ...	10 by 7 $\frac{1}{2}$ "	3 6	—
3. Large 4to., to hold letters unfolded, <i>Punch</i> , &c. ...	12 $\frac{1}{4}$ by 9 $\frac{1}{4}$ "	3 6	8 0
4. Foolscap, for official correspondence, &c. ...	14 $\frac{1}{2}$ by 9 "	5 0	10 0
5. Music size, for MS. music, &c. ...	15 $\frac{1}{4}$ by 10 $\frac{3}{4}$ "	6 0	—

An extension of this principle, the box having a fall-down front, and INDEXED BOARDS inside, enables letters, invoices, &c., to be at once filed away in alphabetical order, for subsequent removal to the file boxes referring to each letter. It is the most economical system of preserving papers for reference ever introduced. For prices, see above under *Index*.

Letts's INSTANTANEOUS COPYIST

Enables anyone to produce 50 to 100 copies of a document in a few minutes without machine or chemical appliance of any sort. It is in use in thousands of offices in Great Britain, and is superior to any other copying process, because

- (1) It yields better copies and more of them;
- (2) The composition is more durable;
- (3) It is relatively much cheaper;
- (4) The writing is more easily removed after use.

In mahogany boxes, with receptacle for printing paper, supply of ink, and sponge.

Letts's "HOLDFAST" WRITING CASE.

(12 in. by 9 $\frac{1}{2}$ in.)

This is a most convenient and well constructed article. The top is a blotting pad with a strong spring clip to "hold fast" the note paper while in use, or to act as a file for letters to be answered or copied. Inside are fixtures to hold large octavo note paper, envelopes (court and business shape), pen, pencil, &c. The lid fastens with a spring catch.
